SPONSORS IX

TABLE OF CONTENTS XI

KEYNOTE PAPERS

The Seismic Behaviour of Ancient Masonry Structures: Damage Scenarios and Role of FRP in Retrofit and Improvement 3
A. De Stefano and C. Modena

THEME I:
ADVANCED FIBRE REINFORCED MATERIALS IN HERITAGE STRUCTURES

Masonry Walls Strengthened Using Fibre Textile-Mortar System: Experimental Evaluation of Out-of-Plane Cyclic Response 19
M. H. Harajli, H. ELKhatib, and J. Tomas San-Jose

The Impact Resistance of Masonry Units Bound with Fibre Reinforced Mortars 33
Md. T. Islam and V. Bindiganavile

Retrofitting AACHEN Cathedral with a Flexible Textile Reinforced Mortar Bandage 47
M. Raupach, T. Büttner, and H. Maintz

Polymer Composites for Rehabilitation of Heritage Timber Structures 61
K.-U. Schober

Shaking Table Test of a Two-Storey Stone Masonry Building Reinforced with Multifunctional Textiles 71
L. Stempniewski, T. Messervey, C. Münich, D. Zangani, M. Urban, S. Liehr, and L. Sasek

Numerical Simulations of Retrofitted Concrete Members Subjected to Blast Loads 83
J. S. K. Magnusson, W. Hu, and K. A. El-Domiaty

Experimental Behavior of Tuff Masonry Strengthened with Lime Matrix–Grid Composites 97
A. Balsamo, I. Iovinella, M. Di Ludovico, and A. Prota

Chemo/Piezo-Resistive Cement-Based Sensors for Real-Time Structural Health Monitoring of Historic Structures 109
N. Banthia and F. Azhari

THEME II:
STRUCTURAL CHARACTERISTICS OF MASONRY IN HERITAGE STRUCTURES

Investigation of Effective Modulus of Elasticity and Shear Modulus of Brick Masonry Wall under Lateral Load 125
T. Akhi, A. Mufti, L. Jaeger, D. Polyzois, F. Hashemian, N. Shrive, and M. Subercaseaux

Compressive Behavior of Historical Masonry Subjected to Monotonic and Cyclic Loads 133
M. Ispir and A. Ilki

Mechanical Properties of Brick Vault and Adobe Piers – A Heritage Case Study..... 147
S.S. Mahini and A. Eslami

Strength and Economic Assessment of Different Retrofitting Methods for Shear Deficient Masonry Walls of Heritage Structures 161
T. Nagy-György, V. Stoian, and D. Dan

Conventional and Innovative Anchor Performance in Heritage Masonry Stones 173
M. Uddin, A. Mufti, L. Jaeger, D. Duchesne, N. Shrive, J. Paquette, and D. Stephenson

A Suggesteded Guideline for Seismic Evaluation of Existing Unreinforced Masonry Buildings in CANADA 187
L. Jaeger, A. Mufti, N. Shrive, M. Sorour, D. Duchesne, and J. Paquette

Non-Linear Behavior of Masonry Walls with Different Iranian Roman Brick-Work Settings 195
A. M. Halabian, L. Mirshahzadeh, and S. Hamid Hashemolhosseini

Numerical Study of the Dynamic and Earthquake Response of Greek Post-Byzantine Churches with and without Base Isolation 209
G. C. Manos, V. Soulis, O. Felekidou, N. Karamitsios, and L. Kotoulas

Aseismic Performance of Rehabilitated Heritage Stone Structures in CANADA..... 225
A. Elmenshawi, M. Sorour, D. Duchesne, J. Paquette, A. Mufti, L. Jaeger, and N. Shrive

Effect of Through-the-Wall Anchors on Multi-Wythe Stone Masonry Walls 239
M. Sorour, A. Elmenshawi, D. Duchesne, J. Paquette, A. Mufti, L. Jaeger, and N. Shrive

THEME III:
ADVANCES IN STRUCTURAL HEALTH MONITORING

Construction Vibrating and Its Impact on Heritage Structures 253
S. Lubej, A. Ivanič, and M. Lep

Structural Health Monitoring of the COLOSSEUM: Optimal Sensors Placement..... 267
G. Monti, G. Quaranta, and G. Carlo Marano

Smart Monitoring of Historic Structures by Wireless Sensors 281
C. U. Grosse, A. Troi, G. Pascale, C. Colla, S. Simon, V. Rajčić, M. Krüger, and M. Lukomski

A Numerical Investigation of the Dynamic and Earthquake Behavior of Byzantine and Post-Byzantine Basilicas 291
G. C. Manos, V. J. Soulis, O. Felekidou, and V. Matsou

The Effect of Subway Vibrations on Stability of Neighboring Historical Sio-Se-Pol Bridge in Isfahan 307
A. M. Halabian, M. Maleki, and S. Hamid Hashemolhosseini

Monitoring, Assessing and Strengthening Historical Masonry Structures: Case Studies 321
E. Verstrynge, D. Van Gemert, L. Schueremans, and S. Ignoul

Non-Destructive Mechanical Evaluation of Ancient Chestnut Timber 333
B. Faggiano, M. R. Grippa, A. Marzo, and F. M. Mazzolani

Novative Solutions for Heritage Structures Monitoring 349
S. Piot

Protection of Cultural Heritage against Flood (CHEF) – A EUROPEAN Research Project 361
R. Helmerich, C. Köpp, M. Drdácký, C. Hennen, L. Lanza, M. Golež, D. Kolymbas, I. Herle, A. Virsta, and L. Binda

Monitoring the Moisture Transport in Building Stones Using Fibre Optic Relative Humidity Sensors 371
S. Srinivasan, P. A. M. Basheer, K. T. V. Grattan, T. Sun, B. J. Smith, and H. A. Viles

Evaluation and SHM strategy for the arches of the aqueduct of Queretaro 385
F. J. Carrión, J. A. Quintana, J. A. López, J. L. Moreno, R. Alvarado, M. de J. Fabela, D. Vázquez, J. R. Hernández, and M. Martínez

THEME IV:
STRUCTURAL HEALTH MONITORING AS A TOOL FOR STRUCTURAL MAINTENANCE AND RESTORATION

Structural Monitoring of Damaged Cultural Heritage Buildings after the April 2009 ABRUZZO Earthquake 397
F. Casarin, F. da Porto, and Claudio Modena

Long-term Structural Health Monitoring of the Royal Villa of Monza 411
D. Inaudi, A. Del Grosso, T. Messervey, R. Walder, and C. Fuggini

Zhenfeng Tower Maintenance and Its Durability 421
T. Yongjing, S. Zhendong, and E. Kujawsky

Diagnostics for Maintenance of Historic Buildings in Central EUROPE 429
I. Vidovszky and Zs. Józsa

The Corrosion Management of Iron Components within an 1827 Historic Bank Façade in London 441
Jones

Proposing the Structural Health Monitoring System for Heritage Holly Golden Dome of IRAN 455
M. M. Amiri

Wireless Monitoring of the JOHANNISKIRCHE in SCHWÄBISCH GMÜND 467
M. Krüger, C. U. Grosse, S. A. Bachmaier, and J. Willeke

Survey and Realistic Modelling of Ancient AUSTRIAN Roof Structures, Part I 481
A. Meisel, T. Moosbrugger, and G. Schickhofer

Realistic Modelling and Repair of Ancient AUSTRIAN Roof Structures with Wood-Based Panels, Part II 495
A. Meisel, T. Moosbrugger, and G. Schickhofer

Structural Health Monitoring and Condition Assessment of a Heritage Stone Masonry Arch Railway Bridge 509
P. Banerji and S. Chikermane

Wireless Sensor Network for Monitoring of Historic Structures under Rehabilitation 519
J. M. Samuels, M. Reyer, S. Hurlebaus, S. H. Lucy, D. G. Woodcock, and J. M. Bracci

Diagnostic Load Testing and In-Service Monitoring for Assessment and Preservation of Historic Truss Bridges 533
H. W. Shenton III, M. J. Chajes, and W. W. Finch

Structural Health Monitoring of the Masonry Vaults of the Brooklyn Bridge 547
I. Talebinejad, C. Fischer, F. Ansari, and B. S. Yanev
